Nota/Note:
APABILA operasi bermula dalam tahun 2021 kelak, Laluan SSP akan bermula dari Stesen Kwasa Damansara. Ini bererti bilangan stesen bagi Laluan SSP adalah 39 stesen termasuk Stesen Kwasa Damansara, Stesen Kampung Selamat dan Stesen Sungai Buloh yang sedang dibina di bawah MRT Laluan Sungai Buloh - Kajang (Laluan SBK). Sehubungan itu, Laluan SBK juga akan bermula dari Stesen Kwasa Damansara. Ini akan mengurangkan bilangan stesen Laluan SBK daripada 31 ke 29 stesen.
WHEN operations commence in 2021, the SSP Line will begin from Kwasa Damansara Station. This brings the total number of stations for the SSP Line to 39 including Kwasa Damansara Station, Kampung Selamat Station and Sungai Buloh Station which are being built under the MRT Sungai Buloh - Kajang Line (SBK Line). Therefore, the SBK Line will also begin from Kwasa Damansara Station. This will reduce the number of stations for the SBK Line from 31 to 29 stations.
